PUBLISHED WEEKLY IN CANAL POINT BY PAUL RARDIN

CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

Area-Wide Co-operative Effort Could Result In MORE SUGAR FROM GLADES!

To Seek Bids Bldg. Pahokee Airport

County commissioners voted Monday to advertise for bids for construction of a building at the Pahokee airport at estimated cost of \$23,000. Plans are being prepared by County Engineer Steve Middleton's office.

County Commissioner Chairman Paul Rardin, under whose direction the new building is to be erected said that it will contain room enough for two or three small planes, rest rooms, long distance telephone, space for a snack bar, space for a repair shop and other incidental room necessary to operation of an airport.

They also approved the job of paving an additional parking ramp at Palm Beach International Airport to make more space available for parking air liners. Twelve thousand dollars had been budgeted for the job.

A proposal of the Hertz Corporation that it have the rental car concession at PBLA was turned over the County Attorney Harry Johnston for a report on the complete airport transportation set-up. A Hertz representative was quoted as offering the county a minimum of \$20,000 a year, or 10 per cent of its gross time and mileage charges, should the county renegotiate to place the concession.

The commission voted to send to Broward county, for its reaction, a report that a new Power Line Road bridge carrying a 28-foot roadway could be built over the Hillsboro canal—the Palm Beach-Broward county boundary—for \$69,000.

The commission Monday also: Voted to stand \$250 expense of sending Assistant County Solicitors Marvin Mounts, Jr., and Paul Potter, Jr., to a short course at Northwestern University.

Turned over to Engineer Middleton a petition for laying gas mains in Forest Hill Village.

Concurred in a plan of marking all county vehicles with the name of the governmental unit owning them.

Turned down a proposal that it budget \$11,000 for hiring a court parole and probation officer, the money, possibly, to come from increased fines.

Mr. and Mrs. Leo Maxwell have returned from Lakeland where they spent several days. They also recently visited his brother-in-law and sister Mr. and Mrs. K. Gilbert in Chipley, Fla.

Mrs. Earl Crossman and children of Fort Lauderdale have returned to their home after visiting her parents, Mr. and Mrs. Sam McKinstry, Sr., and family and other relatives in Pahokee.

Dr. Young Seriously Ill Pahokee Hospital

Dr. Wilburn C. Young of Canal Point is seriously ill in the Everglades Memorial Hospital at Pahokee, suffering from a blood clot. Dr. Rotter of West Palm Beach, famous heart specialist, was called in after Dr. Young had been hospitalized by Dr. William T. Gist of Canal Point.

Dr. Young and his family have taken the month of August for a vacation for the past several years. This year they had planned to go north to visit Mrs. Young's folks and make a leisurely trip back home through interesting sections of the eastern seaboard, arriving back in Canal Point September 1.

R. J. Simonson Has 86th Anniversary

Mr. and Mrs. R. B. Simonson were hosts at a birthday dinner Sunday at their home on Bacon Point Road, honoring their uncle R. J. Simonson on his 86th birthday anniversary.

Simonson an early pioneer in this section, located on the east shore of Lake Okeechobee in 1917. At that time Pahokee was an untamed tropical wilderness. Beginning with a hoe and garden rake as his only equipment, R. J. helped to develop this section of the Glades into a garden spot of the world, with push-button farming methods.

He has also been instrumental in helping to establish churches and schools and a sound economy for this area.

Now retired the soil and cattle still occupy a great place in this thinging and planning.

Funeral Services For Dave Alston

Funeral services were held Tuesday for Dave Alston, 59, of Clewiston, who died on Sunday following a heart attack on Saturday. He had been a resident of Clewiston since 1926 when he moved there from his native Richland, Ga. Mr. Alston was a brother of Mrs. G. Lawton Sims, until recently a resident of Canal Point for many years and now of Athens, Ga.

With his wife, he operated a camera and office supply store on Sugarland Highway, in Clewiston, owned and operated the first chain of drugstores in the Everglades for 20 years including one in Belle Glade, and one in Pahokee; owned the Seminole Jewelry Store, Clewiston; and was a member of the First Baptist Church, Richland, Ga.

He was also a member of the Chamber of Commerce, charter member of Kiwanis, a former school board member and county commissioner, all in Clewiston.

Survivors include his wife, one daughter, Mrs. Martha Nell Bishop, and two granddaughters, all of Clewiston; four brothers, J. L. of Hamlet, N. C., Roy of St. Louis, Mo., Paul of Inverness and Walter of Richland, Ga.; two sisters, Mrs. Edgar Kimbrough of Kimbrough, Ga., and Mrs. Lawton Sims of Athens, Ga.

Mr. and Mrs. Rustin Boatright and son Bobby have returned to their home in Tallahassee after visiting his brother and sister-in-law Mr. and Mrs. Walter Boatright in Pahokee. Mr. and Mrs. Boatright also had as recent guests Mr. and Mrs. Elmer Peebles of Savannah, Ga.

County Board To Seek A Raise In Our Sugar Quota

Among the first groups to seek cooperation of Congress in changing the present sugar quota so it will be more favorable to Florida will be the Palm Beach County Commission. Chairman Paul Rardin said yesterday that he will ask the full board at next Monday's meeting to pass a resolution to be sent to members of Congress asking that the sugar act be changed.

Millage Reduced By Co. Commission

A 1-billion, 148-million, 860-thousand, 470-dollar (\$1,148,860,470) Palm Beach county tax assessment roll was presented by Assessor David Stewart Monday to the county commission, sitting as a board of equalization.

Up \$85,771,015 over the 1959 roll of \$1,063,089,455, it brought an immediate announcement from Commission Chairman Paul Rardin that the millage to be levied for the coming year by the County Commission can be reduced from the 5.92 mills levied last year to 5.79 for the coming year.

On motion of Commissioner Kenneth Foster, seconded by Roy E. Michael, Jr., the commission authorized completion and adoption of a tentative budget for the coming year, expenditures to be kept within the 5.79 mills, with a public hearing on the budget to be advertised for August 8.

Of the total valuations in the new tax roll, \$943,585,610 worth of property is non-exempt, or subject to taxation—for an increase of \$69,011,825 over last year's non-exempt total of \$874,573,785. Making up the total of non-exempt valuation are these items:

Non-exempt real estate, \$839,308,470; tangible personal property, \$94,322,990; railroad and telegraph property, \$9,854,150.

Added to the \$943,585,610 roll of non-exempt property to make the \$1,148,860,470 total is \$205,274,860 worth of homesteads that are exempt from taxation. This is an increase of \$16,759,190 over last year's total of \$185,515,670 worth of tax exempt homestead property.

Assessor Stewart said the increases in valuations represented "the normal growth of any tax roll," including new construction.

About a score of property owners appeared to make complaints about their assessments. They were told to try to iron out their troubles in conference with Stewart. (continued on page 8)

"Sugar Cane Growers Cooperative Of Florida" Is Formed

Formation of "Sugar Cane Growers Cooperative of Florida" on Monday of this week may lead to the salvation of the economy in the western section of Palm Beach county. For many years growers, business and professional men have known that something else other than beans, celery and sweet corn, is needed to stabilize the economy of this area. Sugar cane may be the answer.

At the organization meeting a set-up was perfected whereby the big operators in the Glades cannot take over and hog the deal. The small man will be given an equal chance for acreage if and when the sugar quota act is changed by Congress.

All vegetable selling organizations and cooperatives now in operation have become members of the new and larger cooperative. Each member group will have one director in the new organization, thereby assuring Lake Okeechobee Farmers Cooperative in Canal Point the same voice and vote that Pioneer Growers Cooperative in Belle Glade will have.

Nineteen groups representing more than 100 vegetable farmers combined Monday and applied for a charter as the Sugar Cane Growers Cooperative of Florida.

With the recent action in Washington slashing Cuba's sugar quota, hope is high that permanent quotas will be allowed Florida farmers, who are seeking diversification to bolster an economical slump in agriculture production.

Several independent groups have been seeking a sugar quota for months and Monday's organization cemented efforts of all farmers of the community under one organization.

Cooperatives are of long standing in Glades agriculture, and it's expected that the total qualifying membership list will reach 200, requiring the planting of more than ten thousand acres of cane and the building of a mill.

Cash Register Is Stolen From Cowart

Thieves broke into Cowart's Laundry and Dry Cleaning plant in Pahokee Friday night and carried away the cash register, a hand saw and a filing cabinet. Rep. Cowart, proprietor, said there was no money in the register. He said that the small filing cabinet was found in the weeds near the plant. Entrance was gained by the thieves by breaking out a jalousie window in the rear of the plant.

Farm Credit Needs Constantly Growing

The Florida farmer and grower has always required considerable credit, since the production of such crops as citrus and vegetables requires a heavy outlay for fertilizers, spray materials and labor. But farmers generally today must have more credit than ever before, and the need for farm credit is constantly rising.

Robert A. Darr, president of the Federal Intermediate Credit Bank of Columbia, which makes production loans in Florida, predicted recently that credit needs in 1970 will be 40 percent higher than they are now. Costs generally are rising and the more "built-in maid service" a producer must supply, the higher will be his expenses. The credit man foresees a need for short-term credit to be five or six years, rather than one or two years or less.

"The future commercial farm will be so large that it will not be possible for the average man to pay for it in a lifetime," he predicted. Thus he sees the coming of some type of corporation farming, where ownership of the farm will not have to be paid for by one man during his life. Farming will become more and more a business rather than a way of life. The family farm will continue to decline.

Farmers now obtain credit from both federal and private sources. The Farm Credit Administration of Columbia includes the federal agencies making mortgage, production and cooperative loans here. Mr. Darr emphasizes that these federal agencies do not loan federal money—they issue debentures and borrow money to loan, as well as use money supplied by their own farmer members.

Both Mr. Darr and others are pointing to the fact that farm land prices have risen for the past several years while net farm income has been declining. This has brought about an unfavorable relation between net farm income and cost of land and made it more difficult to pay for land out of the farm income obtained from the land.

To those who would be concerned about a possible shortage of farm land, Mr. Darr pointed to the fact that average yields have increased at the rate of three percent a year, which has been sufficient to take care of increased production needs without utilizing additional land.

Clayton's Sinclair Service Is Bus Stop

Mr. and Mrs. Clayton Waters assumed the South Bay agency for the Trailway Bus lines last week and will operate from their Sinclair Service Station on U. S. 27. For the past several years the buses have stopped at Everglades Restaurant, and ticket sales handled by Bully Walker. Prior to that time Mrs. Waters handled ticket sales for the bus lines.

Needless Losses In Handling Livestock Cause Heavy Waste

GAINESVILLE — Handling losses are still bleeding profits from the livestock industry, according to Dr. R. L. Reddish, associate animal industrialist with the Florida Agricultural Extension Service.

These losses include killed, crippled and bruised animals, transit shrinkage and loss of bloom. Dr. Reddish says a conservative estimate by Livestock Conservation, Inc., places the per head loss for beef animals at 60 cents or \$50 million annually and the loss for hogs at about \$7 million.

The specialist lists several suggestions for reducing shipping and handling losses of livestock.

"Outlaw clubs, whips and other brute causing persuaders. Use canvas slappers and use them sparingly. Eliminate protruding nails, bolts and broken boards in trucks, pens and chutes. Remove stumps, posts and machinery that will cause bruises from feedlots.

"Bed the truck properly. Have trucking equipment in good order. Load carefully, taking it slow and easy. Rough handling is an expensive way to speed up loading and unloading. Use partitions to prevent fighting, trampling and suffocation.

"Protect cattle from the weather. Provide ventilation. Drive carefully, avoiding sudden stops, sharp turns and quick starts. Check the load frequently."

With these suggestions in mind, adds the specialist, most losses in handling cattle can be easily prevented, insuring an increase in cattle profits.

Seaboard-Coast Line Combine Would Effect Big Saving

TAMPA — Economies realized after five years of operation will equal \$38-million if the Atlantic Coast Line and Seaboard Air Line railroads consolidate their operations.

This was the prediction of ACL President W. Thomas Rice, speaking to approximately 400 railroad men, chamber of commerce members, city officials and newsmen. He stated that in 1958 ACL and SAL saw they must do something to cut wasteful duplication and competitive practices.

"We saw that we had to face the facts of competition from other modes of competition," he said.

The stockholders of the two companies will vote on the merger Aug. 18 and immediately following a favorable vote the two lines will file a petition for consolidation with the Interstate Commerce Commission.

William O'Steen has returned to his home in Miami after visiting his son and daughter-in-law, The Rev. and Mrs. T. C. O'Steen.

Sales Tax And Gas Tax Increased In Year Just Passed

TALLAHASSEE — State Comptroller Ray E. Green says collections from state sales, gasoline and racing taxes increased during the last fiscal year.

Green reported that the sales tax produced \$171,417,065 during the 12 months ended June 30. This was \$200,000 more than predictions made last May by state finance officers.

Gasoline tax collections in the fiscal year totaled \$119,688,000, a gain of about 6.29 per cent for the year. This money is used to build roads.

The income from the state racing tax is split equally among the 67 counties. Each county this year got \$188,700 from the state's race tracks: Hialeah, Gulfstream, Tropical and Sunshine Park. Receipts this year showed an increase of 5.8 per cent in race track taxes over last year.

Speed Boats More Prolific In Florida

CAPE CORAL — Florida will take its rightful place as "speed-boat capital of the world" with the staging of the richest regatta in history Aug. 26-28, the National Inboard Hydroplane Championships.

Fans from throughout the state, and many out-of-staters as well, are expected to pour into Cape Coral, 12 miles southwest of Fort Myers, to witness the competition.

During the three days of "Flying Kilometer" world speed trials and closed course competition on the Caloosahatchee River course, seven 1960 national class champions will be crowned. And, a flock of "Florida-made" records are expected to be written into the books.

A. J. Gamot is spending three months visiting relatives in France.

CANCER RESEARCH

GAINESVILLE — An \$50,960 grant has been awarded the University of Florida for research in a relatively new field of study which could yield chemical compounds with possible effects against cancer. The grant was made by the National Institute of Health to Dr. Henry C. Brown, professor of Chemical Engineering and the research will be undertaken in the University's Engineering and Industrial Experiment Station.

Mr. and Mrs. Dan Carpenter attended a Realtors Convention in Clearwater over the weekend. Before returning to their home they visited their son-in-law and daughter Mr. and Mrs. Dan Borganes of Tallahassee.

Mrs. Quincy Harper has returned to her home in Moore Haven after visiting her daughter Mrs. Doris Sims and family and her son-in-law and daughter Mr. and Mrs. John T. Pickett, and family.

Here's what the new $3\frac{3}{4}\%$ interest rate on U.S. Savings Bonds means to you:

\$3 = \$4 *fourteen months faster than before*

The Bonds you own are better than ever, too

The new $3\frac{3}{4}\%$ rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra $\frac{1}{4}\%$ from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

More advantages of U.S. Savings Bonds

You can save automatically. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

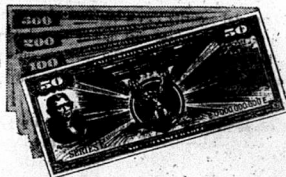

ber, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

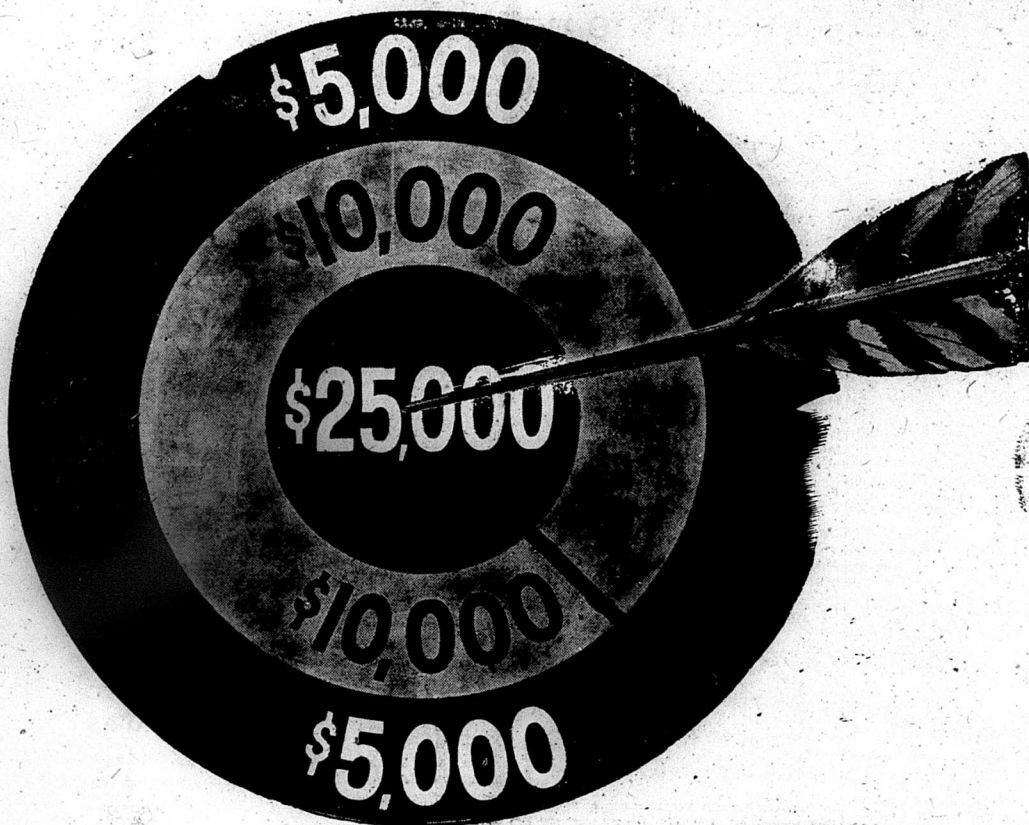

Start saving with U.S. Savings Bonds today. You'll save more than money.

You save more than money
with U.S. Savings Bonds

Pick your savings target and shoot straight for it!

A home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you *before* you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 39 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.30 a week. In 5 years you'll have Savings Bonds worth \$2063 in cash; in 10 years, \$4442.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or target in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

The U. S. Government does not pay for this advertising. The Treasury Department thanks for their periodic donation, the Advertising Council and

Mrs. H. M. McIntosh and her sister Miss Julia Mathis have returned from Panama City where they visited their father, who is ill.

Mr. and Mrs. Milton Salvatore and family accompanied by his brother-in-law and sister Mr. and Mrs. Albert Herron of Fort Lauderdale, have returned from a vacation trip to Cherokee Nation, N. C. and Myrtle Beach, S. C.

Mr. and Mrs. Clarence Maxwell are visiting his brother-in-law and sister Mr. and Mrs. K. Gilbert in Chipley, Fla.

Mr. and Mrs. Leo Wroten have returned from vacationing three weeks in Tennessee, the Carolinas and Georgia.

The Rev. and Mrs. Larry O'Steen and son of Jacksonville, visited his parents the Rev. and Mrs. T. C. O'Steen for several days while they were vacationing in South Florida.

Mr. and Mrs. L. H. Hicks and children Patricia and Billy, of Pittsburg, Pa., were the guests for several days of his mother Mrs. Hazel Jenkins and his nephew Weldon Cardin. Mr. and Mrs. Hicks and family are in Miami this week.

Mr. and Mrs. H. C. Graham returned this week from a vacation in Missouri, where they visited relatives.

Mr. and Mrs. H. J. Anderson accompanied their daughter Mrs. Luther Collier and son Andy, as far as Lake City on their return to their home in Contonment, Fla., over the weekend. Mrs. Collier and her son spent several weeks as the guests of her parents here. Before returning home Mr. and Mrs. Anderson visited friends in Winter Park.

Mrs. E. J. Graham and children are visiting relatives in North Carolina for several weeks.

Christian Science Group Of Canal Point

How scientific prayer leads to a clearer understanding of Truth will be brought out at Christian Science services Sunday.

The Lesson-Sermon on "Truth" will include the following passages from the Bible (Luke 11:11, 13): "If a son shall ask bread of any of you that is a father, will he give him a stone? or if he ask a fish, will he for a fish give him a serpent? . . . If ye then, being evil, know how to give good gifts unto your children: how much more shall your heavenly Father give the Holy Spirit to them that ask him?"

The importance of prayer is also emphasized in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including the following (11:27-31): "Prayer cannot change the unalterable Truth, nor can prayer alone give us an understanding of Truth; but prayer, coupled with a fervent habitual desire to know and do the will of God, will bring us into all Truth."

Pete Loreti Wins Trip To Nassau

Peter J. Loreti, Budweiser salesman for National Brands, Inc., won a three days cruise on the S. S. Florida to Nassau. Loreti competed with 41 other salesmen from Miami, Ft. Lauderdale and West Palm Beach. Loreti is the salesman of the Glades area. He also won cash award of \$100. Mr. and Mrs. Loreti will leave August 2 for the trip.

Penny Brower Will Wed A. A. Maloy

Mr. and Mrs. Glenn T. Brower of 2176 East Main St., announce the engagement of their daughter, Glenda Penny to Alver Allen Maloy.

Miss Brower is a graduate of Pahokee High School, Class of 1959 and attended Palm Beach Junior College.

Mr. Maloy is the son of Mr. and Mrs. A. C. Maloy, of Belle Glade. He is a graduate of Belle Glade High School and served for four years in the U. S. Air Force. The wedding will take place at Pahokee First Methodist Church, July 31, at 4 p. m.

A reception will follow the ceremony in the Social Hall of the church. No invitations are being issued but friends of the couple are invited to attend.

Shower Compliments Annette McIntosh

Miss Annette McIntosh, bride-elect of Sidney Alton Stubbs, Jr., was complimented with a calling shower at the home of Mrs. Lloyd Hundley Wednesday from 7-10 p. m.

A pink and white color motif was emphasized in the decorations, table appointments and refreshments.

The refreshments table was laid with a rose lace cloth, sprays of Eucharis lilies, lagerstroem blossoms and fern encircled the crystal punch bowl, and pink tapers in candelabra lighted the table.

Miss Jeanne Mock and Miss Jill McIlwain were at the table and Mrs. Hundley received the guests with the honoree and her mother Mrs. H. M. McIntosh.

Hostesses assisting Mrs. Hundley were: Mrs. Seth Roberts, Mrs. Homer S. Barnes, Mrs. Rupert Mock, Mrs. E. F. McIlwain, Miss Jeanne Mock and Miss Jill McIlwain. Mrs. Sadie Barwick also assisted the hostesses.

Some 100 guests attended.

Combine Native And Improved Pastures In Cattle Program

GAINESVILLE—The use of native and improved pasture to supplement each other is a management system that has been employed successfully, according to University of Florida agronomists.

D. W. Jones, associate agronomist with the Florida Agricultural Extension Service, says a five-year study was conducted at the Range Cattle Experiment Station, Ona, to find a practical method of native and improved pasture management.

The combination of native and improved pastures reduced the acreage required per cow as compared with native range and provides more feed of higher quality.

Winter feed supply, the most critical shortcoming of the native range, can be greatly increased by a deferred grazing schedule. This additional feed greatly reduces seasonal weight declines nad death losses and increases production of the herd.

Jones says the individual cattleman should determine the forage seasonal weight declines and death requirement of the herd through the entire year and in addition should study the production capabilities of his pastures.

If cattle needs exceed pasture performance, the rancher must increase forage supply, provide supplemental feed, or reduce cattle numbers.

Jones says each pasture-cattle unit is an individual problem in management, forage production and cattle requirements and must be treated as such. A workable balance between cattle needs and feed supply is vital to the success of any pasture plan.

A detailed discussion of year-round grazing on combination native-improved pastures is contained in Bulletin 554 A, published by the Florida Agricultural Experiment Station, Gainesville.

THE U. S. TREASURY SALUTES YOUR BANK...

One of the 14,000 selling
"Shares in America"

More than 14,000 banks from coast to coast each day perform an outstanding service for their customers, their community, and the nation by selling Shares-In-America . . . U. S. Savings Bonds.

Every family benefits, every community profits because of banking's leadership in promoting this all-American thrift program. Today, 40 million Americans own more than \$42 billion worth of U. S. Savings Bonds. Today Bonds are better than ever. Every Bond bought since June 1, 1959, now pays 3¾% at maturity. Even your older Bonds will earn an extra ½% from June 1 to maturity.

Chances are your banker encouraged you to buy your first Savings Bonds. The next time you visit your bank take time to thank him for his good advice, and buy an extra Bond while you are there.

When you buy U. S. Savings Bonds
you save more than money

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{2}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1950.

Q: Does the new rate change the Bonds I bought before June 1, 1950?

A: All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

YOU SAVE MORE THAN MONEY WITH

The Everglades News

PAUL RARDIN, Publisher

Millage Reduced—

(continued from page 1)
art. One of the—William H. Dyer—developer of the Palm Beach Memorial Park cemetery and mausoleum at Hypoluxo—suggested that cemeteries be placed in a special tax classification, since their use is not subject to change, and the commission made his remarks a matter of record.

Stewart took exception to remarks of some of the protestants about him and his office.

"We honestly are trying to do a fair job," he declared.

County Attorney Harry Johnston explained that, under the law, the county board hasn't authority to arbitrarily change a tax roll except for equalizing taxes between two pieces of like property that may be unequally assessed.

The county board planned to continue sitting as an equalizing body Tuesday and, perhaps later until all complaints are disposed of.

Stewart also presented total non-exempt property, valuations for various special taxing districts of the county as follows:

Northwestern Palm Beach County Hospital District, \$21,545,892; Southwestern Palm Beach County Hospital District, \$33,880,717; Southeastern Palm Beach County Hospital District, \$224,696,100; Port of Palm Beach District, \$438,378,083; Jupiter Inlet District, \$45,067,326; South Lake Worth Inlet District, \$260,905,859.

The Southeastern hospital district certified to the county board a millage of 1.7 for the coming year—a two-tenths of a mill reduction under last year, said Commissioner Ben Sundy. It was reported that the South Lake Worth Inlet Commission contemplates a millage of .32 (32-100's of a mill) compared with .34 last year. Commissioner Foster made the point that, with valuations higher, the Port of Palm Beach and the other special districts might be able to set lower millages than originally planned.

Also presented by Assessor Stewart Monday was a Palm Beach county intangible personal property tax roll for 1960 totaling \$1,223,000,000. It compared with last year's roll of \$1,142,210,870 of intangible property valuations.

Three Circles Meet Tuesday Evening

Three circles of the Baptist Woman's Missionary Society met Tuesday afternoon and evening to enjoy programs and fellowship.

Mrs. Joe Thompson was hostess to members of the Lottie Moon Circle at her home in the afternoon. Mrs. F. G. Gillis presented a program on "Christian Means of Acquiring Money." Assisting her were Mrs. Joe Thompson, Mrs. Bill Unwin and Mrs. Marvin Crady, chairman, who also presided.

Mrs. M. M. Andrews was hostess to members of the Faye Taylor circle at her home Tuesday evening with Mrs. Foster Lassiter, co-hostess.

Mrs. C. E. Williams presented the program on "Christian Means of Acquiring Money." She was assisted by Mrs. Paul Younger, Mrs. Andrews, Mrs. Edward Culberson, and Mrs. Ed Todd.

Mrs. H. E. Unwin, chairman, who presided, named the following nominating committee: Mrs. Ed Todd, Mrs. M. M. Andrews, and Mrs. Edward Culberson, who will report at the next meeting.

Mrs. Lassiter was welcomed as a new member of the circle. Mrs. Williams led the devotional and the August meeting will be at the home of Mrs. Edward Culberson with Mrs. Frank Gillis, co-hostess.

The Grace Jernigan circle met at the home of Mrs. Robert Henderson with Mrs. Mary Hammond, chairman, presiding.

Mrs. Wiley Tillis presented the program on "Good Will Centers." She was assisted by Mrs. Hammond, Mrs. Alex Johnson and Mrs. Henderson.

Edwin Fountain and Calvin Watson, FFA delegates are attending a forestry school in Higa Springs, Florida.

Insurance Costs Down On Premium For Compensation

TALLAHASSEE — The Florida Industrial Commission today announced a tax reduction saving employers \$365,000 annually on Workmen's Compensation insurance premiums.

Commission Chairman James T. Vocelle said the agency "can make this tax reduction as a result of economical operations and being able to cut unit costs of administration."

Just a year ago the Commission reduced the assessment paid by cities and other local government units for the administration of the Social Security program (Old Age and Survivors Insurance) as it applies to public employees in Florida. It also suspended entirely the half of one per cent assessment charged against Workmen's Compensation insurance premiums for the purpose of building up a "Second Injury" Fund.

The action reported today cuts from \$3 per \$100 down to \$2.30 per \$100 the assessment that must be paid by insurance companies on all premiums they collect in sales of Workmen's Compensation insurance policies. The Commission is authorized under the law to impose an assessment up to 4 per cent on premiums paid. The reduction just made reduces the assessment rate to the lowest in the twenty-five years since the Commission has been created. The reduction also applies for businesses or groups of businesses which provide

their own Workmen's Compensation coverage by being "self-insurers." With premiums anticipated at \$72,842,000 in the year ahead, a three per cent assessment would produce \$2,185,270. The 2½ per cent assessment will produce some \$364,212 less, representing the amount saved.

Vocelle said "We are very gratified to be able to make this reduction in the cost of the Workmen's Compensation insurance program in Florida. It should be pointed out that the efforts of our deputy commissioners over the State (who decide the controversies which arise between employers and employees over the application of the law when a worker is injured on-the-job) has been a substantial factor in bringing about this reduction. In 1959 these deputies handled 11,709 cases at an average per case cost of \$33.13, lowest in the past 10 years and a \$10 per case reduction over that period. We are proud that our deputies have been organized to render such efficient service," Vocelle added. He said deputies handled an average of 650 cases each last year, compared to 245 per deputy in 1952.

Vocelle said it was his belief that even greater savings could be accomplished if the deputy commissioners could be put on permanent civil service status. This change was sought in the 1959 Legislature but failed passage. The appointment and tenure of deputies now is subject to political patronage.

Vocelle noted that in 1959 approximately 83,000 employers had complied with the requirements of providing Workmen's Compensation "job-accident" insurance for their workers. Some 190,000 injuries were reported to the Com-

mission last year. Seeing that the employers carry Workmen's Compensation insurance as required by law, that benefits are paid to injured workers and handling all the administrative details of this operation are functions of the Commission in the administration of the Workmen's Compensation Law.

Some 1,200,000 workers in the State last year were covered against possible accidental injury through the insurance carried by their employers.

SHOWER TONIGHT

The home of Mr. and Mrs. H. J. Anderson on Bacom Point Road will be the scene of a bridal shower for Miss Roberta Hatten tonight from seven o'clock until nine.

Mr. and Mrs. C. R. Wetherington and sons Mark and Kent have returned from a tour of Florida while away they visited Silver Springs and Cypress Gardens.

Wayne Hundley Is Fellowship Leader

Wayne Hundley was recently elected president of the Intermediate Youth Fellowship of Pahokee First Methodist Church. Other officers named were: Billy Boe, vice president; Dottie Lair, secretary-treasurer; Mary Lee Adams, MYF fund treasurer.

Mr. and Mrs. B. Elliott, Jr., have been named counselors of the MYF. They replace Mrs. Lloyd Hundley, who resigned.

Mr. and Mrs. L. M. Mullis accompanied by their son Tim Mullis of Mobile, Ala., have returned from a vacation and visiting relatives in Baton Rouge, Montgomery and Ringgold, La. Tim Mullis has been transferred from Mobile to Miami by the company with which he is associated. He was the weekend guests of the Mullis'.
